17th December 2008

Reference – Character Builders South West Ltd

Character Builders have recently completed a large project under our direction involving the repair and reconstruction of two historic barns on a farm in West Devon.

Tom Diffey and his team have between them a strong mix of traditional and modern building skills, and also a commendable attitude on project administration and site safety. The work has been carried out with clear enthusiasm across a well managed and tidy site. The barns have consequently been finished to a high standard and ahead of schedule. The team have been accommodating, adaptable and helpful at all times in the interest of progressing the project at the inevitable complications that arise in work of this type.

We look forward to working with Character Builders on future repair and conservation projects.

Yours faithfully,

T. Hunter B Eng C Eng MIStructE
